MAKE THE RIGHT CHOICE

Every tool in this catalogue has been developed to help you work more efficiently. Our product development team have created 'Typically Teng' features on many products that have repeatedly earned us top ratings for value and performance and numerous recommendations in the trade and consumer press.

'Typically Teng' features will help you work better, smarter and faster. Features that include a unique tool storage system 'Get Organised', ratchets with quick release and flip reverse, ISO certified torque wrenches with in-built angular gauges, screwdrivers with T drive, hardened tips and ergonomically designed handles, 'Mega Bite' pliers with titanium coated joints and spanners with the 'Hip Grip' drive system for increased torque.

Our continuous development and quality improvement programmes have secured Teng Tools position as one of the leaders in markets around the world

PROFESSIONAL USERS

Teng Tools has become the first choice for many industrial users all over the world. Our unique 'Get Organised' system allows professionals to build a custom tool kit to suit their own individual needs.

Professionals in many industries may require tools to be stored in EVA foam. We have an extensive range of EVA tool trays that can be used with our clever storage options to create a bespoke tool kit ready for the demands of any workshop.

Teng Tools has been used in the toughest environments around the world and is built to last. We offer a complete solution of high quality tools at a reasonable price.

Our tools are used by companies that do not compromise on quality. Our extensive range offers an opportunity for buyers to find an optimal assortment with regard to quality, range and price.

A detailed photograph of a car's engine compartment with the hood open. The hood is a vibrant red, and the underside of the engine bay is lined with black carbon fiber. Various engine components, including hoses, a yellow-capped oil filler, and a black air filter, are visible. A mechanic in a dark shirt is working on the left side of the engine. A red flag with the text 'KOSTA BODA' is attached to the hood. The background shows a workshop setting with yellow and red striped walls.

The cabinets are easy to organise,
they are at the right price level
and the quality is great, even for
our needs! We need tools that we
can trust and rely on.

STAND OUT FROM THE CROWD

Teng Tools users stand out from the crowd as individuals who are on the road to achieving their goals!

We have become synonymous with Speedway and Rallycross as well as supporting other motor sports & events around the world.

Our tools have become the only choice for many professional mechanics working in motor sport where wasting time searching for tools is not an option.

With our vast experience working with motor sport mechanics we know that tools need to be easily adaptable to their needs. Our 'Get Organised' system is perfect for creating tool kits to suit the requirements of each technician allowing them to perform at their best every day.

// We don't have time to waste, we need our tools to be ready when we need them. Everything has a specific place. The tool kits look damn good too!

BUILT TO LAST

Designed to exceed the demands of any professional workshop

All of our tool storage is manufactured from heavy gauge, top quality steel. They are built to last!

During the manufacturing process our tool storage is powder coat painted with a 5-step rust prevention and undercoat.

Comfort grip handles. These top & middle boxes are supplied with rubber coated side handles while these tool cabinets are equipped with rubber soft grip transport handles.

Cabinets are fitted with castor wheels covered with high-quality rubber. Two fixed and two swivel with brakes. Fitted in a U-shaped bracket providing extra strength and stability.

All drawers are equipped with robust 3-step ball bearing slides allowing them to be fully extended easily to gain greater access to the tools.

Single drawer opening safety feature. On a selection of tool cabinets you can only open a single drawer at a time to avoid the cabinet falling over.

Improved combination locking system for extra security on all standard tool boxes and roller cabinets.

Keep your tools secure and safe when not in use with our selection of tool boxes and cabinets with a key lock.

SERVICE CASES

With quality, easy management and design in mind, we have developed a portable solution to organise your tools! It's called the Teng Tools Service Case and is an extension of the Teng Tools tool storage system.

Equipped
with a code
lock to protect
your tools!

Retractable
telescopic
handle makes it
easy to transport
the case

Case

- A moulded robust plastic body makes the case strong and stable.
- The transport castors are made of rubber making the case easy to pull and prevent it from sliding.
- The rubber feet mean the case does not slide around or damage painted surfaces.
- Carrying handles on the short and long sides to satisfy all needs.

I need a kit that's easy to move around but I can't waste time searching for tools. This kit is so easy to transport and every tool is securely stored. Finally I have the kit I need!

Tools are secured with a plastic lid allowing a clear view of where each tool is stored

As a part of the Get Organised concept the case can hold 9 standard TT sets

The centre compartment sits loose in the case and can be easily lifted out when you need your tools

Your kit. Your way.

- Four suggested complete mobile tool sets that suit most users.
- The case is also available without tools, so that you can choose any combination from the Teng Tools range of more than 160 different TT sets to create your own personal set of tools.

Get organised™

TOOL STORAGE

Teng Tools tool boxes and tool cabinets have been designed to meet the high demands made by professionals from all over the world. No details are left to chance when our tool boxes and roller cabinets are manufactured.

A full range of storage accessories, side tables, side drawers and tool panels are available and can be placed on both sides of all Teng Tools roller cabinets.

Build your
ultimate tool kit
by combining
our storage &
accessories

The Teng Tools eyes appear on top boxes helping you stand out from the crowd!

BUILT TO LAST

Designed to exceed the demands of any professional workshop

All of our tool storage is manufactured from heavy gauge, top quality steel. They are built to last!

During the manufacturing process our tool storage is powder coat painted with a 5-step rust prevention and undercoat.

Comfort grip handles. These top & middle boxes are supplied with rubber coated side handles while these tool cabinets are equipped with rubber soft grip transport handles.

Cabinets are fitted with castor wheels covered with high-quality rubber. Two fixed and two swivel with brakes. Fitted in a U-shaped bracket providing extra strength and stability.

All drawers are equipped with robust 3-step ball bearing slides allowing them to be fully extended easily to gain greater access to the tools.

Single drawer opening safety feature. On a selection of tool cabinets you can only open a single drawer at a time to avoid the cabinet falling over.

Improved combination locking system for extra security on all standard tool boxes and roller cabinets.

Keep your tools secure and safe when not in use with our selection of tool boxes and cabinets with a key lock.

Soft close drawers. A selection of tool cabinets are supplied with a soft close drawer function providing extra protection for the drawers contents.

HOW DO THE TRAYS FIT?
 CHOOSE THE TOOL TRAY SIZE BELOW TO
 FIT THE SPACE IN YOUR STORAGE:

Storing tools in hard to reach places and in an illogical manner can disrupt the workflow of any garage or workshop. The unique Teng Tools Get Organised System uses tool trays that click together to fit perfectly into your chosen storage solution. You do not have to waste time searching for tools anymore.

Every tool has its own specific place in your toolbox. You can rest assured knowing that any tool you need is easy to find and ready for the task whenever you need it. This creates a more efficient workflow and gives you more time to do what you do best every day.

SOCKET SETS

A good socket set is one of the most important things to have in your tool collection. Do not try and get away with skimping to save some cash in the short term when choosing a socket set. You can guarantee that when you choose Teng Tools you will not be let down!

SOCKET SET FEATURES:

Retractable handle, especially designed for comfort and durability.

Clear layout makes it easier to see which tools are missing

The divider, which keeps the tools in place, is attached by a hinge on the outer edge so it can be moved to one side when using the tool set.

Rubber feet to prevent the box from sliding and which protects against scratching.

SOCKETS & ACCESSORIES

The socket range includes drives from 1/4" to 1" and includes six-point sockets and twelve-point sockets, metric and imperial sizes as well as TX-E.

A wide range of bit sockets for six-point, TX and TPX is supplemented further by a range of adapters for use with the comprehensive range of bits, found in the screwdriver range.

All sockets are produced according to Teng Tools "hip grip" system, which means the socket grips on the flat surfaces of the nut rather than on the corner. This system helps to prevent damage to nuts and bolts and makes it possible to grip nuts and bolts which already have damaged corners.

Made from
extra strong
chrome
vanadium
steel

Safety lock system on the $\frac{3}{4}$ " extension bars prevents sockets from loosening

- The range includes standard extensions and swivel extensions in lengths from 50 mm to 500 mm.
- Retaining grub screws are fitted to many accessories for extra safety when working in confined areas.
- 3 function adaptors that increase or decrease as well as including the possibility of a T-handle together with an extension bar.
- Screwdriver handle with square drive at the end of the handle to create a T handle that gives extra torque.

Don't lose your sockets! All sockets are supplied with a clip for use with clip rails.

IMPACT DRIVERS & BITS

**STUBBORN SCREWS + BOLTS
DON'T STAND A CHANCE!**

As a mechanic there is nothing more frustrating than wasting time and effort trying to loosen a stuck nut or bolt. Hand impact drivers are simple tools that work amazingly well for this task. Compared to a power impact tool there is far greater control with these models, they give greater access and they are so easy to use. If you can hold the tool and swing a hammer, then you can use this affordable impact tool!

After inserting the correct impact bit into the impact driver engage the stubborn screw or bolt. Apply downward pressure, while at the same time attempting to turn the impact driver in the direction you want the screw or nut to turn. Now the fun part! Whack the top of the impact driver with a hammer until the screw or nut is loosened enough to use a faster tool, such as a socket and a ratchet.

SPANNERS

Our range has been developed over many years with DIN and ISO standards as the lowest benchmark when it comes to quality and size tolerances. This is a policy that has resulted in many top positions on best-buy lists in consumer and trade magazines. The range includes many different types of spanners for most application areas and personal taste. All spanners are available individually as well as in TT sets, tool pouches or wall racks.

Combination spanners

- Manufactured and designed in accordance with DIN3113A in high grade chrome vanadium steel.
- The ring head is offset 15 degrees to facilitate use even on flat surfaces.
- Teng Tools "Hip Grip" feature means the contact surface grips on the flat surfaces of the nut or bolt rather than on the corner. This helps to prevent damage and makes it possible to grip nuts and bolts which already have damaged corners.

"Hip Grip"

Anti-slip combination spanners

- The ring head is offset 15 degrees and is also countersunk so you can gain access in confined areas.
- The ring head is equipped with Teng Tools "hip grip" system that prevents damage to nuts and makes it possible to grip already damaged nuts.
- Hole in the handle for tool securing.
- The design of the shaft ensures an improved grip to avoid slipping and cause injury.
- The new design includes an anti-slip grip at the open end.

Anti-slip grip at the open end & an improved grip to avoid slipping

Ring ratchet spanners

- Ratchet spanners with 15 degree offset head for easier use against flat surfaces.
- Lever for quick reversing between left and right-hand action.

Ring ratchet spanners with flexible head

- Ring ratchet spanner with 180 degree flexible pivot to gain access to even the most hard to reach nuts and bolts.

72 teeth give an arc of 5 degrees for smooth operation

"Hip Grip"

Teng Tools "Hip Grip" feature means the contact surface grips on the flat surfaces of the nut or bolt rather than on the corner. This helps to prevent damage and makes it possible to grip nuts and bolts which already have damaged corners.

TORQUE TOOLS

Teng Tools torque wrenches have become an industry standard. Whether you choose the classic version that has been a favourite for many years or the new P-Series range designed for the industrial and maintenance sectors you are guaranteed quality, accuracy and reliability as standard.

Classic Series Torque

- Graduated in Nm & ft/lbs
- Lockable setting
- Manufactured according to ISO6789

All torque wrenches are supplied with a factory calibration certificate

Use a torque wrench to apply specific torque, not for tightening or loosening fasteners

Torque wrenches are supplied in a plastic case for protection when not in use

P-Series Torque

- Easy to read window scale
- Industrial quality grade steel tube
- Perfect for professional & industrial use
- Easy to recalibrate
- Preset torque with ease using the Teng Tools Safety Locking button

Torque wrenches are precision instruments that need to be serviced regularly

PROFESSIONAL | RELIABLE | ACCURATE

All things that make Teng Tools torque wrenches the right choice for you.

SCREWDRIVERS

Unlike other brands the Teng Tools screwdriver blade has steel alloy wings that the plastic handle is moulded around. This allows for greater torque to be put on the screwdriver, ensures the blade is dead straight and stops the blade from moving in the handle.

What type of handle do I need?

The larger type of handle allows for more power and force to be executed with the driver.

The smaller type of handle make it easier to work quickly as less force is required with the driver.

Round Shaft | for extra speed

HEX Shaft | for adding extra torque

The round shaft is smooth for rapid hand movement and a spanner can be used on a hexagonal shaft for adding extra torque.

Always use the right type of screwdriver for the fastening you need to turn!

2 component grip handle gives better support, increased comfort and improved power transfer

Hole in the handle can be used in a fall arrest system, for storage and for use as a T-handle

The bi-material handle is designed for increased comfort and smooth action preventing blisters after continuous use. It gives better support and increased power transfer. The red resistant plastic is used for the core and ensures the blade is held securely and the soft black material prevents the screwdriver from sticking in the hand allowing for rapid movement.

CHOOSE THE RIGHT HANDLE FOR THE RIGHT TASK

A larger type of handle allows for more power and force to be executed with the driver while a smaller type of handle make it easier to work quickly as less force is required with the driver.

BITS & DRIVERS

All Teng Tools bits with a hexagonal drive are designed and manufactured in accordance with the latest industrial standards. Screwdriver bits and socket bits are classified as consumables and thus are only guaranteed to meet dimensional standards.

Bit sets supplied
in handy pocket
sized storage
with bits that are
easy to access

Full range of bit
adapters, screw
holders and
accessories are
available

Bits drivers for every application that allow you to access the hardest to reach fasteners

Bits Drivers

An extensive range of bit drivers are available in the range including ratcheting drivers, stubby drivers and folding handle drivers for greater power transfer. A selection of drivers offer the option of storing bits in the handle so you do not have to waste time searching for bits when you need them.

INSULATED TOOLS

All 1000-volt tools from Teng Tools conform to or exceed all specifications that the relevant authorities have established. Each tool is individually tested before it is marked with a special standard tag and a marking that indicates the year of manufacture.

The screwdriver shaft in the 1000 volt range is covered with two layers of insulation in different colours that make it easy to see whether the insulation is damaged. The blades are insulated before the handle is moulded, which makes the screwdrivers safer.

What are our insulated tools tested for?

- Insulation properties, i.e. resistance up to 1000 volts in dry or humid environments. ✓
- Resistance to the cold, i.e. how well the tool withstands the cold. ✓
- Durability, i.e. that the insulating handles do not come loose. ✓
- Resistance to fire, i.e. how well the tool withstands fire. ✓
- Insulating properties under pressure, i.e. how well the tool maintains its insulating properties when subjected to pressure. ✓

Pliers made from chrome molybdenum steel with an 80° cutting edge angle

RBD shafts are ultra slim allowing for recessed screws to be accessed easily

Manufactured to the highest standard:

- IEC 60 900 is an international standard for testing tools designed for electrical work on the production line.
- DIN EN 60900 is a European standard drawn up in 1995 and which states that each individual tool must be tested with regard to insulation for 1000 volts.
- VDE is an independent authority that tests and checks tools with regard to construction, production and packaging. It is not the same as IEC 60 900 or DIN 60 900.

What are our insulated tools tested for?

- Insulation properties, i.e. resistance up to 1000 volts in dry or humid environments. ✓
- Resistance to the cold, i.e. how well the tool withstands the cold. ✓
- Durability, i.e. that the insulating handles do not come loose. ✓
- Resistance to fire, i.e. how well the tool withstands fire. ✓
- Insulating properties under pressure, i.e. how well the tool maintains its insulating properties when subjected to pressure. ✓

1000V

PLIERS

The extensive Teng Tools range includes pliers for most applications. In addition, the range includes the usual side cutters, combination pliers and slip joint pliers as well as a number of cable pliers, side cutters for cable ties, frapping pliers, nail nippers, electronic pliers, precision shears and tweezers. Two types of handles are available to choose from: slim rubber dipped as well as ergonomic TPR bi-material handles.

What is **TPR** grip?

- Ergonomic bi-material handle
- More comfortable in your hand
- Extra support when using greater force
- Lighter weight

Steel alloy
with CrMo
gives a
greater cutting
capacity

New slip joint
pliers have a
button for quick
setting of the
jaw opening

Slim design
allows for
greater access
in tight spaces

- The cutting capacity is laser marked next to the cutting edge – makes it easy to see which pliers you need to choose.
- The total length is designed to provide maximum leverage for each pair of pliers, irrespective of whether they are combination, water pump, flat or circlip pliers.
- The cutting edges on cutting pliers are especially angled to suit different materials and application areas.

AIR TOOLS

Air is a powerful and versatile resource that can help you get the job done quickly! If you need to cut through steel or machine-tighten a bolt, you will need a certain amount of torque. Choosing a tool for its convenience or cost really won't do any good if it isn't strong enough to get the job done. This range of air tools pack a real punch and have been developed to exceed the demands of a professional auto workshop.

Impact wrenches available from 3/8" drive to 1" drive

Twin hammer mechanism for increased torque and reduced vibration

Ergonomically
designed
handles for
insulation
against vibration
and cold air

They can operate in areas where other power sources are not available, and they can perform a variety of tasks that electric tools cannot. The tools can withstand various elements, such as dust, heat and water, better than electrical tools. With a simple manufacturing process, their apparatus is less prone to breaking down and they are more lightweight than their electric counterparts.

The range has been developed with 'Typically Teng' features including rubber grips, composite material and reduced vibration to make the tools more user friendly.

The range
includes
ratchets, saws,
blow guns and
die grinders

- Pistol grip with 100mm nozzle and 1/4" air inlet
- Suitable for left or right handed use
- Low effort trigger mechanism for easier operation
- Metal thread insert for reliability
- Hole in the handle for hanging or for use with a fall protection wire

SPECIFICATION:		
Nozzle length	mm	100
Air inlet	inch	1/4"
Length	mm	212
Weight	g	106

Item ID: **ARB01****AIR BLOW GUN**

- Pistol grip with 270mm nozzle and 1/4" air inlet
- Suitable for left or right handed use
- Low effort trigger mechanism for easier operation
- Metal thread insert for reliability
- Hole in the handle for hanging or for use with a fall protection wire

SPECIFICATION:		
Nozzle length	mm	270
Air inlet	inch	1/4"
Length	mm	360
Weight	g	130

Item ID: **ARB02****AIR BLOW GUN**

- Relief slot conforms to OSHA - Occupational Safety and Health Administration safety standards
- Pistol grip with 100mm nozzle and 1/4" air inlet
- Suitable for left or right handed use
- Low effort trigger mechanism for easier operation
- Metal thread insert for reliability
- Hole in the handle for hanging or for use with a fall protection wire

SPECIFICATION:		
Nozzle length	mm	100
Air inlet	inch	1/4"
Length	mm	212
Weight	g	160

Item ID: **ARB03**

MEASURING TOOLS

WHEN ACCURACY IS KEY

Make the professional choice

Our range of Measuring Tools have been developed by focusing on Teng Tools users requirements across the automotive & industrial sectors. All tools are available individually but are also available in the unique Teng Tools TT trays so you can add them to your existing tool kit or include them when you are building your ultimate tool kit.

All tools
developed to
exceed the
demands of
professional
users

Wide range
of tools now
available
including calipers
& micrometers

Multimeter
ideal for use by
any technician
- automotive
or industrial
maintenance

Industrial quality
measuring tapes
are available in
lengths from 3m
up to 50m

MEASURING TOOL SET

- Ideal for engineers and technicians
- Includes a 4 function vernier caliper, steel rule, scriber and base square

Measuring Tools:			
Vernier caliper	mm/inch	150 / 6"	
Steel rule	mm	150	
Base square	mm	100 x 70	
Scriber TC tipped	mm	150	

Item ID: **TTBM**

MEASURING TOOL SET

- Ideal for mechanics and technicians
- Includes a 4 function digital caliper, CAT II multimeter, thread gauge and feeler gauge sets

Measuring Tools:			
Digital caliper	mm/inch	150 / 6"	
Thread gauge set	mm/UNC	0.25–6.0 / 4–42	
Feeler gauge set	mm	100mm blades 0.05 to 1.0	
Multimeter	AC, DC, voltage, current, resistance, temperature, CATI 600		

Item ID: **TTDAM**

MEASURING TOOL SET

- Ideal for machinists and technicians
- Includes a digital 4 function caliper, micrometer and a dial indicator complete with a magnetic stand
- Tools are held in place using three colour pre-cut EVA foam

Measuring Tools:		
Digital caliper	mm/inch	150 / 6"
Micrometer	mm	0-25
Dial Indicator with stand		0-25mm measuring range
Magnetic stand with central locking		

Item ID: **TEDIMM**

DIGITAL MULTIMETER

- Ideal for automotive or industrial maintenance
- 13mm digital display and fold out stand
- Use to measure voltage in DC or AC and DC current
- Includes a diode and continuity tester
- Measure temperature with the temperature probe
- Supplied with test leads
- Uses a 9 volt battery (supplied)
- CAT I 600 volts, CAT II 300 volts, IEC61010

Specifications:			
DC Voltage	Volts	200-200mV - 20-200-250V	
AC voltage	Volts	200-250V	
Resistance	Ohms	200Ω - 2-20-200 KΩ -20MΩ	
Temperature	°Celsius	-40 to +1,000	

Item ID: **DM500**

**NEW**

DIGITAL MULTIMETER

- Ideal for automotive or industrial maintenance
- Extra large digital display with 16mm digits
- Fold out stand for easier use
- Use to measure voltage in DC or AC and DC current
- Includes a diode and continuity tester
- Measure temperature with the temperature probe
- Supplied with test leads
- Uses 2 AAA batteries (supplied)
- CAT I 600 volts, CAT II 300 volts, IEC61010

Specifications:

DC Voltage	Volts	250V
AC voltage	Volts	250V
Resistance	Ohms	200Ω - 2-20-200 KΩ - 20MΩ
Temperature	°Celsius	-40 to +1,000

Item ID: **DM550**

DIGITAL CALIPER

- 4 function caliper to measure height, width, depth and step
- Adjustable between mm and inches
- Reset button and zero set in any position
- Automatic switch off to conserve batteries
- 0.01mm reading scale with 8mm high figures
- Uses CR2032 batteries (supplied)
- Supplied with a plastic storage case
- Designed and manufactured to DIN862

Specifications:

Length of measurement	mm	150
Jaw length	mm	40
Height of figures	mm	8
Resolution	mm	0.01

Item ID: **CALD150**

VERNIER CALIPER

- 4 function caliper to measure height, width, depth and step
- Metric and inch scales with 0.05mm and 1/16" scales
- Frosted chrome plated scale for easier reading
- Stainless steel construction with lapped edges
- Supplied with a plastic storage case
- Designed and manufactured to DIN862

Specifications:

Length of measurement	mm	150
Jaw length	mm	40

Item ID: **CALV150**

MICROMETER

- Friction thimble and locking nut for easy operation
- Forged frame with hardened steel and polished measuring surfaces
- Matt chrome plated scale for easy reading
- Supplied with a plastic storage case
- Designed and manufactured to DIN863

Specifications:

Measuring range	mm	0-25
Reading	mm	0.01
Precision	mm	0.004

Item ID: **MIR25**

DIAL INDICATOR WITH MEASURING STAND

- Aluminium dial indicator
- 58mm diameter dial with a turnable scale and two tolerance indexes
- An extra pointer indicates whole millimetres to make measurements simple
- The stand has central locking
- A strong magnet in the base to hold the stand in place when in use

Specifications:

Measuring range	mm	0-25
Reading	mm	0.01
Maximum height	mm	330
Base plate length	mm	55
Base plate width	mm	50
Base plate height	mm	58
Weight	kilos	1.625

Item ID: **DGMM**

MEASURING TAPES

- mm and inches for international use
- ABS case for durability
- Rubberised grip for a more secure grip especially when wet or oily
- Tape lock and belt clip for secure storage when being used
- Power return tape for automatic rewinding
- Aligning hook for internal/external measurements
- Designed and manufactured to Cat II

ITEM ID:	Length m	Length ft	Width mm
MT03	3	10	13
MT05	5	16	19
MT08	8	26	25

MEASURING TAPES

- Graduated in mm only
- ABS case for durability
- Rubberised grip for a more secure grip especially when wet or oily
- Tape lock and belt clip for secure storage when being used
- Power return tape for automatic rewinding
- Aligning hook for internal/external measurements
- Designed and manufactured to Cat II

ITEM ID:	Length m	Width mm
MT03MM	3	13
MT05MM	5	19
MT08MM	8	25

MEASURING TAPES

- mm and inches for international use
- High impact plastic case for durability
- Rubberised grip for a more secure grip especially when wet or oily
- Tape lock and belt clip for secure storage when being used
- Steel roller cage prevents damage to the case
- Aligning hook for internal/external measurements
- Designed and manufactured to Cat II

ITEM ID:	Length m	Width mm
MT10	10	10
MT15	15	10
MT30	30	10

MEASURING TAPES

- mm and inches for international use
- High impact plastic case for durability
- Rubberised grip for a more secure grip especially when wet or oily
- Tape lock for secure storage when being used
- Steel roller cage prevents damage to the case when the nylon tape is retracted
- Designed and manufactured to Cat II

ITEM ID:	Length m	Width mm
MTS30	30	12.7
MTS50	50	12.7

STEEL RULES

- Stainless steel to avoid corrosion
- Hanging hole for easy storage

ITEM ID:	Length mm	Width x Thickness mm	Scale
ST150	150	20 x 0.8	mm
ST200	200	20 x 0.8	mm / AF

COMBINATION SQUARE

- For measuring and checking angles
- Graduated in mm and inches for universal use
- 300mm steel rule with a reversible protractor, adjustable angle ledge and centre head
- Angle ledge and protractor both include a spirit level

Specifications:		
Protractor reading		0-180°
Steel rule length	mm	300
Square head length	mm	110
Centre head length	mm	63

Item ID: **SQAC300**

ALUMINIUM TRY SQUARES

- Stainless steel blade with an anodised aluminium stock
- Blade measures 1.5 x 45mm with the stock being 18mm wide
- Milled working surface with deep etched markings
- Highly resistant to wear

ITEM ID:	Blade Length mm	Accuracy	g
SQAA200	200	±0.03	240
SQAA250	250	±0.03	275
SQAA300	100	±0.03	300

PLASTIC TRY SQUARES

- Stainless steel blade with a fibre glass framed plastic stock
- Blade measures 1.0 x 45mm with the stock being 18mm wide
- Milled working surface with deep etched markings
- Highly resistant to wear

ITEM ID:	Blade Length mm	Accuracy	g
SQAP250	250	±0.06	150
SQAP300	300	±0.06	160

SLIDING BEVEL

- Check edges for consistency by sliding the edge over the material
- Duplicate angles for marking by setting the adjustable blade
- Straight and true stainless steel blade for accuracy
- Plastic stock for reduced weight and a better grip

ITEM ID:	Blade Length mm	Width mm	g
AB200	200	25	100

BASE SQUARES

- Zinc plated for corrosion resistance
- Base square design enables the square to be sat on a work surface
- Level 3 accuracy

ITEM ID:	Length mm	Blade Length mm
SQAB10070	100	70
SQAB150100	150	100
SQAB200130	200	130
SQAB300175	300	175

FEELER GAUGES

- Blades for measuring from 0.05mm to 1.0mm
- Hardened rolled steel for durability and accuracy
- Fold up case with tightening screw for easy storage

ITEM ID:	No. of Blades	Blade Length mm
FG13100	13	100
FG20100	20	100
FG20200	20	200

THREAD GAUGE

- 55 blades in a handy holder with tightening screws
- Suitable for measuring metric and UNC threads
- 60 thread angles
- Manufactured from #45 steel for a long lasting gauge

Metric thread gauges:
0.25, 0.3, 0.35, 0.4, 0.45, 0.5, 0.6, 0.7, 0.75, 0.8, 0.9, 1.0, 1.25, 1.5, 1.75, 2.0, 2.5, 3.0, 3.5, 4.0, 4.5, 5.0, 5.5, 6.0
UNC thread gauges:
4, 4 1/4, 5, 5 1/2, 6, 7, 8, 9, 10, 11, 11 1/2, 12, 13, 14, 15, 16, 18, 20, 22, 24, 26, 27, 28, 30, 32, 34, 36, 38, 40, 42

Item ID: TGMUNC

ALUMINIUM SPIRIT LEVEL

- 400mm long
- One horizontal and two vertical vials (90° and 45°)
- The vials are designed for easy, all round reading
- Impact resistant end caps to reduce the risk of damage
- Measurement accuracy of 1.0mm per meter

Item ID: SLA040

ALUMINIUM SPIRIT LEVELS

- Crush proof, durable vials with high transparency for easy reading
- Highly resistant to ultra violet light and fluctuations in temperature
- Shock absorbent end protectors to reduce the risk of damage
- Temperature proof vial mountings to reduce the risk of distortion

ITEM ID:	Length mm	Width mm	Height mm	Tolerance Normal	Tolerance Inverted	g

MAGNETIC ALUMINIUM SPIRIT LEVELS

- Magnets on the underside help fix the level to ferrous work pieces
- Crush proof, durable vials with high transparency for easy reading
- Highly resistant to ultra violet light and fluctuations in temperature
- Shock absorbent end protectors to reduce the risk of damage
- Temperature proof vial mountings to reduce the risk of distortion

MAGNETIC ALUMINIUM SPIRIT LEVELS

- Magnetic aluminium "torpedo" spirit level
- 3 magnets on the underside help fix the level to ferrous work pieces
- One horizontal, one vertical and one 45° angled vials
- Crush proof, durable vials with high transparency for easy reading
- Highly resistant to ultra violet light and fluctuations in temperature
- Shock absorbent end protectors to reduce the risk of damage
- Temperature proof vial mountings to reduce the risk of distortion
